Two Reno Men Are Arrested On Tree Removal Charges

Two Reno men. Lonnie Winsett, 21, and Larry Mullin, 19, were being held on federal charges in connection with the alleged theft of more than $3,000 worth of Christmas trees from the Tahoe National Forest, Forest Service officials announced.

The two men, together with five juveniles were apprehended last Wednesday at 3:45 a. m. by Officers Bud Meixner and Don Marker of the California Highway Patrol and Henry Toccalini of the forest service near Farad as they traveled east with a cargo of 150 trees.

Officers said that the five boys were released when it was learned they had been employed to assist in loading the trees.

The removal of the treees from an area five miles south of Sierraville about 200 yards above Highway 89 was discovered by Jack Sherman, a forest service patrolman Tuesday. He found marks in the snow where trees had been dragged to the highway, and reported the matter and a stakeout was established nearby.

The cutting crew showed up later with a small truck and carted away a few trees.

Later that night, the larger rented vehicle arrived on the scene and the 150 trees were loaded and driven away. The CHP was notified and Toccalini trailed the truck to the place where the arrests were made, after the patrol officers stopped the vehicle.

Later a check was made and it was discovered that even before the snow fell trees from the area had been removed and taken to Reno. Altogether some 460 trees were recovered and the value placed at $3,000 which could make the alleged theft a felony. The trees were sold at auction in Sierraville today.

A United States marshal came up from Sacramento and Winsett and Mullin appeared before U. S. Commissioner Gary Schaber.

Mervin Adams, regional investigator for the forest service will appear with the defendants Friday to seek an indictment.

The patrol in the area is maintained through contributions from land owners with the cooperation of the forest service and the recovery of the trees last week is only one of a number of investigations conducted during the season.

Important Hearing On Donner Sewer Set December 28th

In an effort to pave the way for early construction of the proposed sewage disposal system for the area west of Truckee, including Donner Lake, the board of directors of the Truckee Sanitary District have called a meeting for December 28 at 7:30 p. m. in the county government building to discuss with residents of the affected area plans for procedure.

Two courses of action are open, the first being to by-pass petitions from the residents of the area and construct a $1 million main line circling the lake under a special assessment district plan authorized under Acts of 1913 and 1915. The second course would be the slower and tedious task of securing signatures from 60 per cent of the people in the area.

When the line is authorized, separate smaller assessment districts could be formed to provide services in each of the areas concerned.

The purpose of the meeting is to advise the residents of the total cost, estimated now at some $3 million and to determine what the individual cost will be.

A complete engineering report will be submitted and all interested property owners are urged to attend.

Lake Level Lower As Damage Report Denied By DeWalt

TAHOE CITY — With the level of Lake Tahoe down to 6228.1 and 1,300 csf of water leaving the gates, discussions over the water situation in the Truckee river has apparently subsided, although there were complaints from high-level sources that damage was being caused by the 1,750 csf released from the lake last week.

Daryl DeWalt, observer at the gates in Tahoe City, said an inspection trip of the river this week failed to disclose and damage from the heavy flow. In one spot, he said, two small cabins were near the water but he was able to walk around both without getting in the water.

The most prolific complaint was from State Senator Paul Lunardi of Roseville who apparently had received reports that damage was being done by the water. He said he disapproved of a decision to drop the level of the lake at the last minute, contending it should have been done earlier and in easier stages.

The gates were ordered opened November 30 after the lake had reached 6228.87, th highest mark on record for November. The release was ordered to allow for storage later in the year and to prevent flooding along the lake shore. The maximum legal limit is 6229.1 feet.

About 2,000 cfs of water was flowing through Reno and Federal Water Master Claude Dukes pointed out there is no danger of flood here, explaining flood stage of the Truckee river is tagged at 12,000 cfs.

Three Are Nabbed For Cash Register Looting At Market

Three men are being held in jail here on suspicion of grand theft after a cash register at the Z Markets store in Gateway Shopping Center was looted of $460 Tuesday night.

According to a report from Sergeant Roy Waters of the sheriff's department, the three men, James Edward Casey, 34, Oakland, Charles Justice, 36, and Calvin X. Parker 30, both of DesMoines, Iowa, entered the store about 6 p. m. and purchased a package of cigarettes.

The clerk, Glenn Lewis, rang up the sale just as one of the three ordered a package of Life Savers. As Lewis reached for the candy, out of the corner of his eye he saw a hand reach into the open cash register and come out with a pile of currency.

The three men dashed from the store and drove away, but not before Lewis secured a description and license number of the car. He immediately notified authorities and an hour later, the three were apprehended near Loyalton by Sergeant Sam Doyle of the Sierra sheriff's department and Officer Lorin Saunders of the California Highway Patrol.

Deputies Robert Schooley and John Pyle of the local sheriff's squad returned the men to Truckee. All of the money was recovered, Waters said.

Ordinance Aimed To Aid Removal Of Snow Passed

Another step in a campaign to keep the streets and roads in this community as free of snow as possible during the winter months was taken last week by the Nevada County Board of Supervisors in passing an ordinance making it unlawful to park or leave a vehicle unattended which might delay or obstruct snow removal operations on the right-of-way of any county road.

Under terms of the ordinance it shall be the right and duty of officers and county employes, during the snow removal operations or in preparing for snow removal, to remove or cause to be removed any such vehicle parked or left unattended.

Should there be no parking facilities available, the officers or employes may temporarily remove the vehicle from its parking place and repark it after snow removal operations have been completed.

Any violation of this ordinance shall be punishable by a fine of not less than $10, not more than $250, or by imprisonment in the county jail for not less than five days and not more than 30 days, or both.

In the past snow removal has been virtually impossible in some instances where vehicles have been parked along streets, preventing snow removal equipment from passing, creating a nuisance, delaying the work and providing a traffic hazard.

Promise that the new ordinance will be fully enforced was made by Jack Meade, head of the Nevada County Department of Public Works.

With the purchase of new equipment, manned by a full crew and the enforcement of the new ordinance, the streets and roads in this area should be kept reasonably clear throughout the winter months, Supervisor H. G. Loehr declared in supporting terms of the new law.

SIERRA SKIING

By VI WHITE

Another beautiful weekend greeted skiers for the third time in a row. A strong warm wind blew Saturday, but Sunday was perfect.

Snow conditions were unusual because of the warm weather that enveloped the Sierra, but good skiing was prevalent on all slopes.

Shaded areas still had good sugary powder snow while the sunny runs almost turned into granular spring snow. All the heavily used spots are full of moguls and a few rocks and bare spots are showing, so another good storm is needed. Let's hope it's a cold one.

Most of the members enjoyed the excellent skiing at Shirley Lake lift area and Siberia slopes.

New Law Prohibits Freeway Stopping

When driving along the highway, the average motorist is often inclined to stop and help another motorist who is stalled. The truth is, however, that this is often dangerous and on a freeway it is against the law, reminds the California State Automobile Association.

The California vehicle code prohibits stopping on a freeway except when it is necessary to avoid an accident. The reason for the law is simple: on freeways with their fast-moving traffic, the good samaritan who stops to help another motorist is, himself, often the cause of an accident. Help for the stranded motorist is best left to the professionals—the highway patrol, police and tow truck operators who are highly skilled in this dangerous business of stopping on a freeway.

If you want to be a good samaritan and help a stranded car owner on a freeway, take the next off-ramp and report the disabled vehicle to the highway patrol. In most cases this well be the best way to help the person in trouble, says the CSAA.

By 1980, it is estimated that more than 90 per cent of all Americans will live in urban areas.

Third Grade—Mrs. Long: The children who received "A's" in spelling last week were: Mark Briner, Mike Carnell, David Gau, Ronald Prouty, Pamela Baker, Colleen Conners, Karen Duttweller, Jeanne Gregory, Carol Hardin, Michelle Meyer, Penny Nichols, Stephie Smeltzer and Susan Wright.

Third Grade—Mrs. Carnell: The class is making stained glass window for the holidays to decorate their classroom windows.

The children are all working on individual science projects and doing a fine job. Leslie Cordone has chosen rocks and has completed a very nice rock collection with names for all her rocks. Steve Frisbee is completing a paper mache volcano to go with his report on volcanoes.

Fourth Grade—Mrs. Evans: Members of the class earning "A" grades on science reports last week were: Dave Dodge, Mike Jones, Kurt Boyer, Bill Leeder, Connie Christopherson and Mary Puisis. Last week 20 students received 100 per cent on the spelling test.

Our whole class did some outstanding finger paintings last week. Some of the very best ones were done by Kenny Gonzales, Barbara Orr, Steve Bodine, Linda Eberhard and Julie Shaver.

Fourth Grade—Mrs. Farr: The first snowfall inspired the fourth grade and Janis Sampson stunned her class with this original poem: The snowflakes are falling, slowly down,
Whispering the winter song.
Feathery, fluffy-like white blossoms
Sparkling as they go along.

Fifth Grade—Mrs. Diurni: Rock sharing was the topic for last week's class meeting. Lisa Vanni, John Phelan, Dianna Hammer and Danny Hauserman brought parts of their rock collection and presented an interesting program.

Best grades in math, currently big multiplication, were earned by Casey Hanna, Marcine Peterson and Diann Buffo.

One hundred per cent A's in spelling went to Danny Hauserman, Sandy Keechler, Marcine Paterson and Bill Richardson.

Sixth Grade—Mrs. Brower: We have just finished Unit 12 in spelling. This is a six week's review unit. Those receiving A's on a 100 word test were: Jeff Ballenger, Greg Jones, Colleen Buffo, Debbie Everson and Nancy Newell. A secretary and Kim Nott, treasurer. grades were earned by Robert Barwin, David Burkhart, Steve Cotten, Ricky Prouty, Steven Stiles, Maryann Barulich, Rena Francovich, Karen Motta and Sharon Damback. The student showing most improvement in spelling last week was Ricky Prouty.

VISIT CANADA

Mr. and Mrs. Henry Guirle returned Sunday from a five-day business trip to British Columbia where they visited in Vancouver and Kelowna. They report an enjoyable trip and praised the Canadians for their hospitality.

The lens in use at the Pigeon Point Lighthouse in San Mateo County comprises 1,008 pieces of hand-polished glass.

Pioneer Facts and Fancies

OUR PIONEER farm families were hardy indeed. Faced with loneliness and danger, and equipped with only the poorest of tools, they hacked and hewed their livelihoods out of the often unwilling land. The menfolk turned up the soil with rudimentary hand hoes and forks. Or, if they were lucky, they had a plow—but it was big and clumsy, taking six oxen to pull it and two men to handle it.

WHILE THE MEN worked hard and long outside, their women worked equally hard inside. They raised, nursed and doctored their children, cooked and sewed, churned butter and, whenever possible, set the spinning wheel going to spin flax into thread. Apt tribute to such brave and tireless pioneers is paid by the unique Pioneer Village in Minden, in South Central Nebraska.

FARM MACHINERY, from the scythe and cradle to modern harvesters, is displayed among the 30,000 and more items on show in the Village's 22 buildings. Almost all of these pieces—some up to 200 years old—are in working order. One of Pioneer Village's spinning wheels is certainly still as good as new. Every day it's used to demonstrate the great trouble our pioneer women took to clothe themselves and their families.

The Commodores End Engagement

CRYSTAL BAY—Now beginning their final week in the beautiful Topaz Room of North Lake Tahoe's Nevada Lodge are the four fabulous "Commodores", one of our country's most outstanding and versatile singing groups.

The famous "Commodores" have long been recognized nationally, having won themselves a coveted place on the "Arthur Godfrey Talent Scouts" for a record twenty-two consecutive weeks. They have appeared in top night clubs across the nation, and broken records throughout the Reno-Tahoe entertainment circuit.

Each of the "Commodores" is featured in their act, for each is an individual showman and performer as well as an outstanding instrumental musician. Charlie Speed sings top tenor and plays Fender bass, Rusty Wade, second tenor and piano, Kenny Smith, lead and doubles on guitar and banjo, and Ronnie Baron on drums round out this exciting quartet.

The "Mary Hickman Trio", long known as one of the most popular groups in the Reno-Tahoe area, brings a taste of nostalgia to the Topaz Room stage beginning December 18. The group creates a mellow minstrel mood reminiscent of the post World War II era with request tunes and yesteryear's hits.

The "Mary Hickman Trio" also shares the Topaz Room spotlight with the "Commodores" Saturday and Sunday evenings.

Funds Available For Recreational Areas

SACRAMENTO — (CNS) — California's race to provide facilities for the ever increasing pressures on outdoor recreation may be bolstered with $8 million a year in new federal funds.

Hugo Fisher, resources agency administrator, recently notified heads of affected departments that the money will be available, on a matching basis, under the new federal land and water conservation act.

The money is derived from admission and user fees at federal recreation areas; proceeds from sale of certain surplus federal lands; and the existing federal tax on motorboat fuels.

Fisher's report indicated the money would be available for purchase of land, development of facilities, and planning. None of the money could be used for operation and maintenance of projects, once they were completed.

Shares In Tax

SACRAMENTO — (CNS) — Nevada County received $28,778 as its share of the November apportionment of state highway users taxes, State Controller Alan Cranston announced today.

Cranston said $9,631,677 went to the counties. The state highway fund received $25,756,850 for expenditure on state highways, the state highway fund for cities received $4,297,210, and the state highway fund for select city streets and county roads received $6,164,273. The remainder of funds was allocated to storm and flood damage.

The total apportionment was an increase of 10.5 per cent over November of 1964. The amount distributed was derived from the following sources: gasoline tax, $47,476,683; diesel fuel tax, $3,460,769; transfer from the motor vehicle transportation tax fund, $1,184,370, and the balance from miscellaneous sources.

Maria Mintegui To Wed Kenneth Mann

A marriage license was issued by Deputy County Clerk Callie Kydd in the office of Judge F. W. Wilson Tuesday to Kenneth Duane Mann, 29, and Miss Maria del Carmen Mintegui, 22, both of Truckee.

Both are well known in this community where Mann is employed as forest engineer for the Fibreboard Timber Products and until recently Miss Mintegui was associated with her parents, Mr. and Mrs. Juan J. Mintegui in the operation of the Donner Hotel. Mann is an officer in the Donner Area JC's.

The wedding is scheduled to take place at the Assumption Catholic Church with Father Patrick Coffey officiating Saturday afternoon at 1 o'clock.

TAHOE STUDY GROUP HOLDS INCLINE MEET

The Lake Tahoe Joint Study Commission on which Fred Hodder of Truckee represents Nevada County, met at Incline Village last Friday to name Richard Graves of Los Angeles as the ninth member and tentative chairman of the group.

Hodder said there appears to be diverse opinions between the California and Nevada delegations on the exact purposes of the commission, with the Nevada contingent holding that the purpose is to study the need for such a commission and California's delegates contending that action over and beyond the need is called for.

The present schedule calls for a workable plan to be drawn up on the 21 factors involved in the study and have this ready for presentation to the legislatures of the two states by December, 1966, for action in 1967.
